Non-EU workers are also required to have a valid (legible) residence permit.

Sias can verify at any time or directly or through third parties in charge of possession and validity of the aforementioned documents.

Equipment

All the workers who work within the Autodrome Area must be in possession of the PPE.

In the event of non-compliance, Sias will prohibit entry to people without such devices.

Provisions and penalties

In the event of a negative response to the provisions of the preceding paragraphs, Sias will challenge the Organization, Fitter or Operator, by registered mail or certified e-mail, the resulting objections, reserving the right to apply the following sanctions and / or penalties:

- Immediate removal of personnel without the aforementioned documentation:
- Application of a penalty of up to € 10,000.00 to the Organizer, Fitter, Operator or any of their subcontractors.

Art. 5 Preparations

Should the contractor have to proceed with the preparation of areas inside buildings or the outdoor assembly of temporary structures, he is obliged to comply with the obligations and prohibitions set out in Articles 9.4.2, 9.4.3 and 9.4.4 of the Technical Regulations for Events and Events and is obliged to:

- submit to Sias, no later than 30 days before the event, the illustrative documentation of the works to be carried out. This documentation, even in preliminary form, must illustrate the main technical characteristics of the set-up (type of

AUTODROMO NAZIONALE MONZA

structure, compliance with Fire Prevention standards, type and consistency of the electrical system, technical characteristics of cooking systems only for outdoor set-ups).

Upon confirmation of compliance with the safety and hygiene rules in the workplace, Sias will issue its approval which cannot be considered definitive until the final documents referred to in the following paragraph are presented, namely:

- Executive design for setting up complex structures and areas

Within and no later than 3 days from the start of the exhibition / event, the Operator must submit the executive design project, as a natural development of the preliminary project approved by Sias, which must contain the following documents:

a. Graphic drawings (plans and sections) quoted in scales

b. Technical report drawn up, stamped and signed by a professional (Engineer or Architect) registered with the Professional Order containing the following data:

- Brief description of the facilities
- Characteristics of the materials used
- Reference standard adopted for static calculation
- Indication of the weights of suspended loads (truss beams, lighted bodies, lifting devices ect.)

NOTE: for the purpose of a guarantee of safety, the suspended loads applied to the temporary structures must be secured to them not only with their own fastening or anchoring elements but also with additional attachment elements (wire ropes, ring chains, etc.).

- Maximum wind speed to which the structure, complete with side and cover sheets, can resist;
- Declaration of correct assembly (with particular reference to the anchors to the ground)
- Certification of fire reaction classification of the sheets (see also par. 11.2) ..

All temporary structures (however built) installed along the viability of the paddocks (including the access gates to the fenced areas) and along all the avenues of the

AUTODROMO NAZIONALE MONZA

entire Autodrome area must guarantee the transit of emergency vehicles a free width of 3.5 m and a free height of 4 m.

Companies that work on behalf of the Operator in setting up and dismantling temporary areas and / or structures must submit the following documents within 10 days of the start of the events / events:

a. copy of the last payment slip of the RCT insurance policy with a ceiling of € 2,500,000.00;

b. list of workers employed in the area to be set up;

c. employee consent form pursuant to Legislative Decree 196/03;

d. preparation of POS Operational Safety Plan.

In the case of construction of scaffolding, work at height, trabatelli, the executing company will comply with the obligations set out in point 9.4.1 of the Technical Regulations for the Exhibition and Events.

Art. 6 Issue of pass for entry and use of car parks

The access of vehicles (both for transporting people and for transporting materials) to the Autodrome area will be allowed only if the driver and passengers are in possession of the service passes that will be issued, at the request of the interested parties, by Sias.

In particular events, the access of vehicles to the paddock and parking will be allowed only with a specific car / motorcycle pass.

Driveway access to the racetrack area normally takes place from Via Vedano, 5 - Monza Parco.

AUTODROMO NAZIONALE MONZA

The opening hours coincide with those set by the Park and Villa Reale Consortium:

- summer time (daylight saving time) 07.00 - 20.30

- winter time (solar time) 07.00 - 19.00

On the occasion of particular events these times may be subject to changes.

The height limit gauge is 4.30 m.

For special logistical needs of the Operators, the access from Via Santa Maria alle Selve-Biassono can be used, subject to agreements with the Sias Technical Office.

Exceptional transport or vehicles with a height of more than 4.30 m will be accessed through alternative routes with methods and times to be agreed in advance with the Sias Technical Office.

Art. 7 - Rules for advertising - Special events

During the course of the exhibition or event, the following prohibitions apply:

- distribute advertising material (magazines, catalogs, brochures, etc.) outside its own area, except for special exceptions granted by Sias;
- use the trademark and / or logo of Sias - Autodromo Nazionale Monza;
- cause harassment or disturbance, in any form, to the regular conduct of the events, under penalty of immediate exclusion from the event;
- carry out propaganda in any form in the Autodrome area.

Art. 8 Video surveillance

The contractor acknowledges that inside the circuit there are video surveillance systems:

AUTODROMO NAZIONALE MONZA

Art. 9 General provisions on safety and fire prevention

In terms of general provisions on safety, the contractor adheres to and fulfills the provisions of the Technical Regulations for Events and Events artt. 10 and 11 p. 43 et seq.

Art. 10 Sanctions and Penalties

The parties intend to apply the following sanctions and penalties to the extent and in the cases indicated below:

1) Failure to send the set-up project

By not allowing Sias to start the set-up work without the preliminary sending of the related project, it will apply a penalty of € 1,000.00 in the event that the work has begun.

2) Non-compliance with set-up

If the Fitter or the Operator fails to remove the differences in the outfitting with respect to the approved project, Sias will make the changes or the total removal of what has been installed with simultaneous charge to the Fitter or Operator of the related costs.

3) Presence of unauthorized products and / or materials

In case of non-compliance with the provisions of par. Error. The reference origin has not been found, Sias will immediately remove the products and materials that are not allowed with a charge for the related costs

4) Materials without fire reaction certification

AUTODROMO NAZIONALE MONZA

In the event of the presence of construction materials without fire reaction certificates, Sias Spa may arrange for them to be removed. Alternatively, it will activate fire surveillance with qualified personnel, charging the costs of the supervision to the Operator or Fitter.

5) Non-observance of safety rules

For non-compliance with safety regulations, the provisions of paragraph 9.1.3 Provisions and penalties of the Technical Regulations for Shows and Events

In the event of a negative response to the provisions of par. 9.1.1. Sias will challenge the Organization, Fitter or Operator, by registered mail or certified e-mail, the resulting objections, reserving the right to apply the sanctions and / or penalties listed below:

Immediate removal of personnel without the aforementioned documentation:

- Application of a penalty of up to € 10,000.00 to the Organizer, Fitter, Operator or any of their subcontractors.

6) Inability to use fire-fighting devices and electrical utility sockets

In the event that the temporary set-ups make the fire-fighting devices and general electrical utilities unusable, Sias will immediately remove the discrepancy and charge the costs.

7) Improper use of fire hydrants and hoses

Improper use of fire hydrants and fire hoses carries a penalty of € 200.00

8) Non-observance of traffic regulations and parking in a prohibited area

AUTODROMO NAZIONALE MONZA

For those who violate the rules of the Highway Code inside the racetrack and in any case fail to comply with the indications of the traffic officers, Sias will collect their personal pass and car pass.

The owners of the cars will be charged the cost of the removal of € 200.00

9) Omitted disposal of special waste

It involves a penalty of € 500.00, except for higher costs due to environmental remediation and specialized treatments.

10) Affixing of stickers

The affixing of adhesives, even of modest size, to structures, walls, glass surfaces and furnishings, involves a penalty of € 50.00 for each adhesive applied.

Art. 11 Responsibility of the Applicant - Obligation to cover insurance

Sias Spa assumes no responsibility for any damage that may arise to the Applicant or its employees / employees / collaborators from the provision of the Services. The Applicant remains solely responsible for damage to property or people (employees, collaborators, customers, visitors, other users, etc.) that may occur as a result of his actions and / or omissions within the system.

Likewise, Sias Spa is not liable to the Applicant for damages resulting from any thefts suffered in the plant. The Applicant, before the period of use of the system, must take out a suitable insurance policy, against damage from theft, fire and damage to everything existing and introduced into the system, as well as for civil liability.
